

Conical Mandrel Bend Tester

■ Introduction :

A very robust mechanical unit for determining the elasticity, adhesion and elongation of dried paint on sheet metal. It can be used in accordance with: ASTM D522.

■ Features :

- ◆ High-quality steel
- ◆ Compact and firm structure
- ◆ Suitable for desktop use
- ◆ Simple and quick operation.

■ Order Information :

BEVS 1605 Conical Mandrel Bend Tester

■ Standard :

ASTM D522

■ Technical Specification :

- ◆ Size: 280×280×95mm (L×W×H)
- ◆ Gross Weight: 8Kg
- ◆ Size of the cone axis: Small end: $\varnothing 3.1$
Big end: $\varnothing 38$
Length: 203 mm
- ◆ Maximum of sample size: 200X100mm
