| Shelf Life:18 monthsSurface Drying Time:4 hoursDrying Time:24 hours   | Brushing Area:              | 3.5 m²/kg (2 coats)                                      |
| Surface Drying Time:4 hoursDrying Time:24 hours   | Product Standard:           | GB 18582-2008 ; GB/T 9756-2009                           |
| Drying Time: 24 hours   | Shelf Life:                 | 18 months  |
|   | Surface Drying Time:        | 4 hours  |
| Stability of Diluted Paint: 48 hours  | Drying Time:                | 24 hours   |
|   | Stability of Diluted Paint: | : 48 hours   |

Application:

Apply to the wall sealing, the moisture-proof, waterproof and mildew-proof processing before wallpaper (can also be used for wardrobe, decorative cabinet and board waterproofing moisture-proof treatment.).

#### Advantages:

- Excellent performace of alkali resistance
- Good adhesion
- Abrasion resistance
- Strong covering power
- No odors
- No heavy metals

### Application Conditions/ Limitations:

| Surface prepareation:   | <ul> <li>For repainting: Clean the surface till it is free from dust, grease and flaking paint from surface. Any unstable paint to be removed, using high pressure wash or scraper whichever is appropriate.</li> <li>New plaster: Ensure surface is completely cured and dry. Application of cement paint/lime as undercoat is not recommended.</li> </ul> |
|-------------------------|---|
| Dilution(kg):           | Water diluted less than 20%   |
| Construction Temperatur | e: 5°C~45°C.  |
| Construction Humidity:  | ≪85%  |
| Dew Point:              | ♦ Beware of condensation!   |
|                         | <ul> <li>Substrate temperature during application must be at least 5°C above dew point.</li> </ul>  |
| Storage condition       | 18 months from date of production if stored properly in original unopened, sealed and undamaged packaging in cool and dry conditions at temperatures between +5°C and +25°C. Protect from direct sunlight.  |

|  | <ol> <li>Clean the substrate.</li> <li>Brush the paint 1 time.</li> </ol>   |
|--|---|
|  | 3. Brush the second time after drying (after 2 hours of the first coating). |
|  | 4. Next construction process after 24 hours drying completely.              |

#### Safety health & Envirnmental information

| During painting     | Always work in a well ventilated area. Wear appropriate attire, especially gloves and eye protection gear. Avoid contact with skin as it may cause irritation.   |
|---------------------|--|
| Cleaning            | Wash all the tools with water immediately after application  |
| Safety instructions | In case of eye contact, rinse immediately with water and seek immediate medical treatment. To remove paint for skin, use soap and water or appropriate cleanser. In the event of spillage, contain and collect spilt paint by using sand or earth. |
| Environment:        | Does not contain any added lead, mercury or chromium compunds.   |
