○ Newcomer's feelings

Dear every CHOSEN VENT TECH LTD supporter, this is Leslie. I am the new member here, It is happy that I am lucky to join in the CHOSEN family. This is my first time to touch the ventilation industry and work as a product consultant. It gives me a new experience and I learned more knowledge from the products. As a new member, for giving my clients the best service, I pay more attention to studying products. So I always go to the factory to visit the worker of making the products. The raw material through the workers to fine process, they become the beautiful 'artworks'. After the process, the impeller will inspection by Dynamic Balance. Our factory insists on excellence, and the pursuit of superior product quality is the aim and constant pursuit of our engineers and product producers. As a new salesman, I have to serve our supporters with our heart after familiarizing ourselves with our products. At last, I must thank all my best colleagues, appreciate them Grow with me on the way forward and give me the biggest support. Thank you.

○ Company Activities

VISITING ORPHANAGES

Today is October 20, 2018. This is a special day. We had a wonderful afternoon with the children of the orphanage. Our team went to Shunde Orphanage with gifts to visit the children and play games and sing with them. In addition to our team, 20 employees from another company came to the welfare home.

As our motherland's economy has grown stronger and the people's lives have improved, the number of abandoned children has become less and less. The government has allocated a lot of funds for orphanages, and people are very caring. People from all walks of life will donate money and donations. Now the facilities of the orphanage are very complete, with all kinds of professional equipment, professional medical staff to take care of the children, treatment and rehabilitation for those with disabilities, and more importantly, the welfare orphanage wants each child to grow up. Afterwards, they can integrate into society and become self-reliant. Children can get the right education and acquire skills.

Unfortunately, we can't take photos with children because we want to protect their privacy. We strongly agree with the hospital's decision and respect the children. Grateful to the society, grateful to the government, grateful for so many enthusiastic people.

○ Shipping Information

1x40'HQ loaded to our customer Mr Yoram from Israel this quarter. This is a LCL container which need to be loaded 5 suppliers' goods. According to the forwarder's loading plan, will load the 4 suppliers' goods at Qingyuan first, we are the last one to load our goods. On the loading date, the container arrived at Qingyuan at 9:00am in the morning, but it costed four hour and a half to finish loading (a very long time). We've been waiting for the container until 8:30pm in the evening. Unfortunately, when the container arrived at our factory, we found there was not enough space for our goods. We asked our workers to reset the goods again immediately, and successfully loaded our goods into the container in one hour. (High efficiency) Although we worked overtime and felt exhausted, but we are pleased that our customer can receive all the goods.

○ Letter Of Thanks

Letter Of Thanks

Dear customers,
HAPPY NEW YEAR for all of you!

Firstly, many thanks for your supports in 2018. We were happy to receive inquiry from you. It's our honor to contact with you and our duty is to give you our best products and excellent service. On the other hand, thank you for your understanding for something we didn't doing well enough. We will try our best to provide better service and products to you!
