

Company Dynamic

Hello everyone, I'm **Winnie** and one of member from Chosen. Though the training in this short week, I learned about ventilation products which I had never learned before. Such as Axial Fan, Centrifugal Fan, Impeller ect,. Thank you for giving me the biggest support and care. I hope to learn more knowledge and work for the company in the future.

Hello everyone This is **Niki** and work as product consultant. As a new employee entering a new working environment, although I have accumulated the necessary work experience in the past work, it is inevitable that I will be a little stressed when I first enter the company. CHOSSEN is every employee who cares about himself or herself, giving each employee enough space to show themselves!

Customer Visual

Why CHOSSEN is a good brand in customer 'mind ?

When they start moulding order they would like to start supply chain simultaneously. First order will be Atomzer for us. (And submersible pump either)

Moreover, The customer is going to come to visit me in our office in Istanbul on 26.03.2019. I suppose you will finalize all things till that date.

One special note for Chosen by the Deputy General Manager of University Technopark:
They are working well known and popular global brands and suppliers in this project and they kindly require Chosen to be involved to this brand feast and walk them together in this path for long years as good decent partners. They see Chosen as a very good brand from Asia.

Customer Story

Customer from IRAN

The busy season of CHOSSEN has started from March. In March, many customers come to visit our factory. And Mr. Mohebbiand and his assistant from Iran are one of them. It is the first time for Mr. Mohebbiand to visit China. But they are impressed by the reception of us because of our professional and good service. During the visit, Mr. Mohebbiand checked our mist fan quality and sets a high value of it. After he goes back to Iran, he keeps contact with us and makes a purchasing plan. We are sure we will start our business in the coming future!
